

A Financial Plan That Works

When Mayor Allen and the Democratic Team took office, borough finances needed serious improvement. Under Council President Judy Platt's leadership, the Council acquired the expertise needed to put us on solid financial footing.

The Results

Our families received a 3.5% property tax cut, and the borough is taking on positive projects for the community.

Borough Improvements

Before Mayor Janice Allen took office, our borough did not take advantage of state and federal money for improvements and open space preservation. Our team worked hard to bring in more grant money than ever before.

The Results

Downtown revitalization has begun, and we have purchased land to preserve our open space and give our families a place to spend time together.

We've Made a Good Start Now There's More To Do

Mayor Janice Allen and the Democratic Council know there is so much more to do. Our team needs your vote to increase borough services while holding the line on property taxes.
