EA, Beebe

[REDACTED] Ave.

Mayor Allen,

For the record, I must report the removal of garage molding from my property by the municipal workers when they recently cleaned the library property. When I reported to the engineer's office, I was told it was gone as they had been to the dump already. I thought it they should have gone and retrieved it. Your secretary (Tina) asked the head man about it and he told her they didn't take it. Then she said the molding wasn't on my property, but it was.

I don't believe the workers would take valuable molding to the dump.

I appreciate any help you can offer.

Sincerely,

Elizabeth Beebe
